

## HP Aviation: An Overview

Hindustan Petroleum (as Esso and Caltex prior to 1974) has been providing aviation refueling services at various airports in India for more than half a century. Today, we provide fueling services to the aviation industry through our business unit, "**HP Aviation**". Our network covers all the major airports in India and is continuously expanding. Our fueling service of Aviation Turbine Fuel meets and exceeds the stringent International regulations for handling Jet fuel.

The accolades and accreditation earned shows the commitment to quality service encompassing all areas of Operations, Infrastructure and Skilled Manpower.

We take pride in calling our Aviation Fuel Stations as Aviation Service Facilities (ASF)
