

## LIVE STREAMING INFRASTRUCTURE IN POWERGRID

POWERGRID established “Live Streaming Infrastructure” for seamless knowledge dissemination across the organization.

The salient features of “Live Streaming Infrastructure” are as follows:

- ♦ Engages employees with interactive sessions and conduct multiple training programmes at the same time.
- ♦ On-premises solution hosted in POWERGRID Data Centre.
- ♦ Provides reachability up to 500 connections in a single session with connectivity across 200 locations.
- ♦ Integrates with existing video conferencing setup in organization.
- ♦ Impart training sessions directly to users on desktops as well as handheld devices such as mobile phones, tablets, etc.
- ♦ Besides streaming, sessions are recorded and uploaded on various POWERGRID platforms for future references.
- ♦ Enables organization to save cost on travel, boarding, lodging and manpower expenses.
- ♦ Streams seminars, forum discussions, live sessions and trainings.

तकनीकी कार्य को आसान बनाता है और समय भी बचाता है.
